Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in column 22, after inspection of the patent application, it is revealed that the line is printed in accordance with the record. In your amendment dated, May 25, 2004 – line 1 of claim 10 is cited as, “*of claim 117*”; claim 117 was rejected by the examiner, and justifiably claim 113 was renumbered claim 7, as claim 3, is claim 105, which does not correspond with the PTO record, nor your amendment. Hence, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request in this matter is hereby denied.

A certificate will issue for the remaining error(s) in your request.

Note: If you obtain data that clearly shows the attorney/applicant is not in error, simply include proving documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supporting documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request – then, the appropriate fee of \$100.00 with your Reconsideration Certificate of Correction will be necessary. Depending upon the matter of your request, in addition, a petition with it's appropriate fee of \$130.00 may be necessary, or the request may be denied; please see the MPEP for further instruction and understanding. This is a general hint, which may decrease the processing time of your request.
